DR5

Sanitizing Dryer

TR5 DR5

Speed Queen

Pair with
TR5 Top Load Washer

Features

With advanced features like steam and moisture sensing to handle any fabric type.

|	
Temperature selections	5
Preset cycles	9
Sanitizing	Yes
Reversable door	Yes
Cylinder light	Yes
End of cycle signal	Yes
Extended tumble	Yes
Commercial Cool-Down technology	Yes
Energy Star certified	Yes
Moisture sensor	Yes
Steam boost & steam refresh	Yes
Parts and labor warranty	5 years

Speed Queen.

The Power to Kill Bacteria

How It Works

- Leverage the power of heat + time
    - High heat cycles of 75 plus minutes
- 99.9% reduction in common house-hold bacteria*
    - Verified at an independent lab*
    - Bacteria tested: Staphylococcus aureus, Pseudomonas aeruginosa, Klebsiella pneumoniae

Kills 99.9% of bacteria. Bacteria tested by an independent lab were Staphylococcus aureus, Pseudomonas aeruginosa, Klebsiella pneumoniae. Individual results may vary.
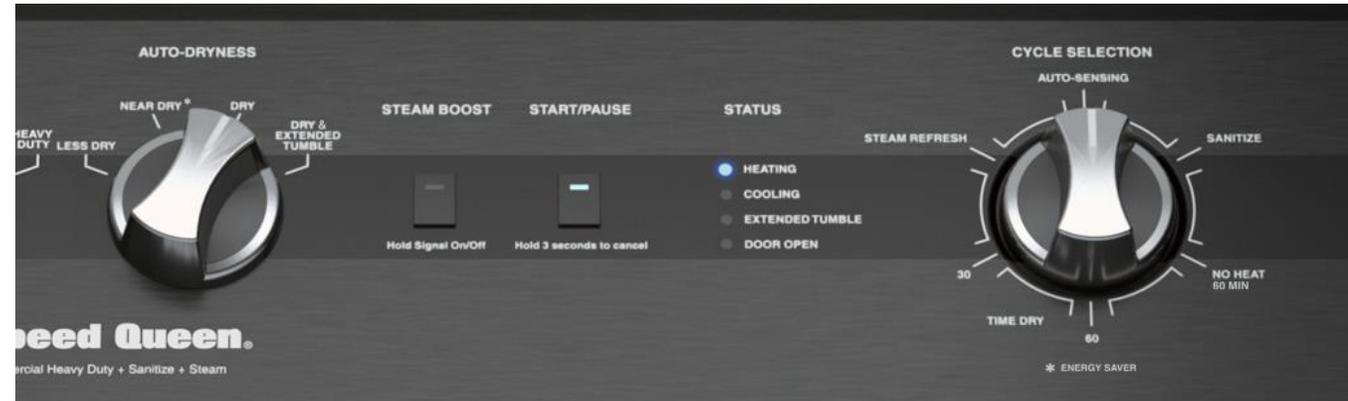

Speed Queen

Bacteria Killing Power

How To Use It

- Use on medium size loads.
- Durable fabric types that are high heat tolerant
- Always check the fabric label for proper care instructions.
- Always allow cycle to complete without interrupting.

Speed Queen

Speed Queen

♨ Steam Features

- **Steam refresh –** Added convenience for refreshing hard to clean items
  - Steams away wrinkles quickly and easily at home
  - The steam refresh cycle has 20- and 30-minute time options.
  - Time is determined by the temperature selected by the user.
- **Steam boost -** An option to add to your cycle to help remove wrinkles from the load and maintain fabric softness
  - **Anti-static -** An option to add to a load. Helps reduce static buildup.

- Delicate, permanent press or regular equals 30-minute medium heat cycle.
- Selecting heavy duty results in a 20-minute high-heat cycle

Over-Dry Protection Technology

Apply commercial-advanced, moisture sensing algorithms for exceptional drying accuracy.

- 52% of consumers say that half or more of their purchases are influenced by convenience.

- Provides the convenience of ultimate fabric care.
    - Dry clothes and linens to the optimal dryness level

Consumer View Winter 2020 "Convenience and the Consumer"

Adaptive Cool-Down Technology

- Working together with over dry protection technology for alternate fabric care

- Adjusts cool-down time according to load size instead of set amount of time for cooldown.
    – Faster cycle times
